

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

Q28a Historic Environments - Additional Areas to be Protected	
1	"The Slopes" should include land off A350.
2	Breach common has become dilapidated scrub. The commons should be stripped of their commons rights and action taken to restore the common.
3	*It depends what is really meant by "enhancement" - this is not made clear. Maintained - yes, all areas* The car park at the top of Spreddeagle Hill, and the car park at Win Green, could do with bins for dog waste. And it would be good to restrict motor cycles and 4 wheel drive vehicles from destroying the Ox Drove
4	LEAVE OPEN SPACES AS THEY ARE
5	A gravity 'railway' to St James from Abbey Walk. (no power needed) Areas to be protected. Wincombe Lane - should NOT be developed. No more houses. (unsold/unwanted)
6	a lot of what we have does not need improving
7	Access to tracks and walks in the surrounding countryside
8	After toilets Lorry ban Crossings for elderly and push chairs etc.
9	All AONBs. Views from and into town (slopes). Policy should be reviewed. Regulations in conservation areas need better control. Protect all stone walls - they are important feature of Shaftesbury.
10	All country areas. The magic of Shaftesbury is its beautiful surrounding countryside.
11	ALL EXISTING OPEN SPACES
12	All green & open spaces, trees & hedges, green corridors, wildlife habitats & road verges. Castle Hill Green needs "Town Green" status & should be kept car-free.
13	All green areas surrounding Shaftesbury, particularly area behind Blackmore Road, unspoilt vale territory which is 'green field' and a sacrilege to build more lego houses on.
14	ALL green field sites
15	all green spaces
16	All green spaces around Shaftesbury
17	All need sensitive planning - if at all. (The last "enhancement" of town centre was a disaster)
18	All of Melbury and East Melbury and Cann. We DO NOT want Bypass to ruin AONB!! Save our beautiful countryside!
19	All of the areas mentioned in Q28 are naturally of great beauty or charm and do not need enhancing
20	All open spaces within the Town Centre all new developments to put in open areas before they are allowed to build.
21	All parks and open spaces
22	All playgrounds and recreational green spaces.
23	ALL SURROUNDING GREEN BELT FOR LOCALS, RAMBLING DOG WALKING VISITORS TO ENJOY NO HOUSES
24	All the ancient historical elements should be researched and where possible the unique background of Shaftesbury and its historical personages should be promoted and places protected to the maximum
25	all the existing needs to be protected, just build on what we have and sympathetically.
26	All the surrounding countryside. Appalling litter problem on Zig zags which is tourist entry to town.
27	All the views
28	ALLOTMENTS
29	allotments and community gardens/projects

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

Q28a Historic Environments - Additional Areas to be Protected	
30	allotments and Shaftesbury home grown community garden projects
31	Allotments to be protected
32	allotments to be protected
33	Answer to Q28 - Enhance? We might save some of the remaining common ground - towards Guy's Marsh for example. Many have gone already.
34	Any enhancement must obtain approval of the population unlike the 2000 enhancement which was done without local support and is a total failure.
35	Appearance of all main approaches to the town to make them inviting and high quality, NOT huge neon signs for fast food outlets (as at present) such as at Ivy Cross/A350
36	Area at Littledown opposite Wincombe Business Park
37	Area of old Abbey ponds
38	area to east of c13 and south of a30- is at c13 and a30 junction by st dennis' carehome.
39	Areas adjoining AONB just across the Wiltshire border must be protected as they add value to the AONB
40	Areas outside Abbey could be made more attractive with 1 less traffic 2 less litter 3 ice cream or small cafe
41	At the end of every dog lead there is a member of the electorate. ensure we have room to move whether or not we are responsible owners who clean up.
42	Barton Hill field should be protected and not developed.
43	Barton Hill playing area needs improvement and possibly tennis courts installed next to the bowls club.
44	Be careful when protecting trees as mature woodland needs to be actively managed. Tree owners should be helped and encouraged to replace old trees that have reached the end of their life with new trees.
45	Bell Street, Bimport, High Street, Gold Hill, & St James street should be protected from modern intrusions, especially from infrastructure additions such as poles, modern street lights, and signage that is not necessary. Tarmac should be removed from Park Walk & replaced with planted areas & traditional paving.
46	Blackmore Vale views.
47	Blackmore Vale views.
48	BLUE BELL COPSE EITHER SIDE OF 350 GOING DOWN HART HILL
49	Boundaries around new housing development. Wooded park land for recreation and screening, particularly around the eastern development
50	Breach Common -footpath is a disgrace, area is overgrown with brambles and balsam.
51	Breach common needs restoring to its original look as in 1970s. less trees, more grass area + less brambles + paths need updating like Castle Hill
52	Cant we do something about those awful pink stones/cobbles in High Street. They look awful, plus if pedestrians are supposed to have a priority the vehicles don't know or don't care. Any chance of losing the green between cobbles of Gold Hill? Our biggest asset looks like it is neglected.
53	Castle Hill could be made much more of an attraction - get archaeology digs - Castle mockup - noticeboards etc. The new footpath is brilliant - we now need more done!
54	Castle Hill Green is threatened by the removal of trees around the new development. Please make sure these trees continue to be protected.
55	CHURH HILL DONKEY FIELD/ORCHARD, ALLOTMENT AT ENMORE GREEN PLAYING FIELD , BELOW CASTLE HILL ST JAMES AREA , GREEN AREAS ON CHRISTIES LANE
56	Circular walk - Park Walk - Castle Hill
57	Clear the slopes of Park Walk & Castle of scrubby, self-seeded trees and weeds to allow the views to be enjoyed

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
58	Comment of Q28: Doy you mean 'don't spoil it'. It doesn't need enhancing. The wilderness.
59	Commons and open spaces
60	considers castle hill, castle hill green and park walk to be adequate.
61	continue to maintain the garden etc and the town walk poss. add water feature - improve playing field.
62	Could do with some more seats in the park rear of breach lane.
63	Countryside presently being degraded by 'Trusts' who have unsustainable grazing practices which discourage visitors..
64	Countryside presently being degraded by 'Trusts' who have unsustainable grazing practices which discourage visitors..
65	Cut the trees down obscuring the view from Park Walk and attend to the slopes.
66	Depends on meaning of "Enhancement" any "enhancement" must be financially sustainable over the long term.
67	Depends what you mean by enhanced. Do you mean urbanisation?
68	Dinahs Hollow
69	Dinahs Hollow - no to DCC's current proposal; no access for HGVs
70	Dinah's Hollow - trees should remain and be protected.
71	DINAH'S HOLLOW and similar areas important to heritage and wildlife
72	Dinah's Hollow C13
73	Dinah's Hollow must be protected, it is an important road for tourists, it is a beautiful wildlife habitat and an ancient hollow.
74	Dinahs Hollow on C13
75	Dinah's hollow, an ancient Hollow Way. Melbury Beacon.
76	Dinahs Hollow, Melbury Abbas. It is one of the main routes into Shaftesbury of ancient standing and must be retained at all costs
77	Dinah's Hollow All green field areas Out countryside
78	Dinah's Hollow Zig Zag Hill Bimport St James Street Gold Hill
79	Dinah's Hollow Zig Zag Hill Bimport and St James Gold Hill
80	Do NOT relocate the Monument at Castle Hill
81	Do not site the Monument on Castle Hill
82	Does q28 mean protected and preserved and managed. If so I strongly agree with the question. However 'enhancement' should not go beyond improving visitors and sympathetic access
83	Doesn't necessarily need to be enhanced just protected.
84	Dog poo is a big problem!
85	Dog walking field between Shaftesbury and Cann. Amazing wildlife - owls, grass snakes, buzzards, deer, foxes, badgers, rabbits, voles, field mice.
86	Donkey field/orchard in Enmore Green St James area Breach Common

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
87	Don't build on acres of outstanding natural beauty. We rely on tourism and mustn't damage the unique beauty of our town and surrounding villages/land.
88	Don't spoil Castle Hill with enhancements. Just keep paths and steps etc in good order (as done recently - well done). The slopes should have an access path going though and along them.
89	Don't understand what "enhanced" means in this context. I want the areas listed protected and not interfered with.
90	Enhance Castle Hill by siting of rifles monument - this will attract more visitors to the town
91	'Enhanced' is a leading word and could either mean 'improve' or 'destroy' - depending who writes the brief. The quality of information provided in this survey is extremely poor.
92	Enhancement is not synonymous with protection - protection may preclude enhancement
93	Enmore Green
94	ENMORE GREEN & the area below CASTLE HILLGREEN.
95	Entrance routes into the town - to be enhanced so that the route into the town from whatever direction entices the visitor to explore further.
96	Existing agricultural land surrounding Shaftesbury. Shaftesbury is described as a small market town and that is how we would like to keep it.
97	fields to north of town!
98	FOOTBALL CLUB + OPEN SPACES ie COCKRAMS + BARTON HILL + CHURCH YARD TO THE SOUTH OF CASTLE HILL (WHERE THE OLD CASTLE WAS)
99	Football club and playground
100	footpaths
101	Footpaths (better upkeep and signs) - that take you from the town into the countryside. There are some lovely walks that seem to be increasingly obstructed by land owners
102	Footpaths on town boundaries require surface re-inforcement as more walkers forced to fewer pathways by housing development. Mud bath at present.
103	For enhancement read urbanisation. Less is more... The town is being ruined.
104	Get rid of the tree huggers, so that irresponsible tree listing can be abolished.
105	Gold Hill
106	Gold Hill
107	Gold Hill
108	Gold Hill - must be kept exactly as it is but clean the cobbles.
109	Gold Hill - needs tlc all year round, at times has looked more like Green Hill than Gold Hill! - proper maintenance of grass verges: in summer verges look like they are used for hay making! Need to make more of old castle site - really could be a panoramic view of Vale and attraction if managed properly and signposed correctly
110	Gold Hill and adjacent views.
111	Gold hill is a specific tourist destination and so special attention should be given to protect and enhance this. Current issue with street lighting is a point in case.
112	Gold hill needs to be cleaned - it looks dreadful.
113	Gold Hill should be weeded regularly; last year a 70 year old lady who is a volunteer steward in the museum spent the whole summer weeding it on a regular basis with, I'm pleased to report, the unofficial cooperation of Dorset Waste Partnership workers. Is anything being done about the valerian growing out of the back of the Town Hall?
114	Gold Hill, Melbury Hill
115	Gold Hill, Town Centre. Not enough is being done to stop plastic window invasion into old buildings,
116	Gold Hill: 1.wall 2. street lights
117	Green Belt Areas
118	Green belt on North West slopes of A350.
119	Green spaces (fields) that reflect the rural nature of the area, particularly on the top of the hill

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
120	Greenfield sites and woodland
121	Hard to answer Q28 because it depends what is meant by 'enhanced'. have answered in sense of protect
122	Historic 'old town' areas - Bell Street, Angel Lane etc - minimising through traffic (HGV's), appropriate historic lighting styles, safer pavements.
123	Historic town centre enhancement comment: Signage Any specified area that is being used for a community project. Donkey green, homegrown, allotment sites.
124	how does 28a to 28 if 28 says enhanced and 28 says protected.
125	I am a dog walker and want (most passionately) to have the accessible green spaces within and immediately surrounding Shaftesbury to be retained/enhanced. We have just lost access to fields in the vicinity of Wincombe Dairy.... they were well used (and respected) by dog walkers and this loss is desperately sad.
126	I am not sure what Enhanced means.... If you mean start to meddle with then I have to say no. The town is attractive, the open spaces are attractive and natural. I have not objection to planting more trees etc. But we do not want to create 'noddy' land.
127	I am wary of the term 'enhanced'
128	I disagree with enhancement of the green areas as a whole, as the councils idea of enhance, is usually ruin.
129	I don't see why areas need to be 'enhanced' Shaftesbury, at least the old historic par, is lovely as it is, in my view
130	I don't trust "enhancement " but I want the town centre, park walk, castle hill green, castle hill all to be protected
131	I don't understand Question 28, if you mean 'protected', then my answers still stand, otherwise my answers don't apply.
132	I hope "enhanced" would mean well-managed natural landscape - not suburbanisation!
133	I quite like the existing character of 'The Slopes' surrounding Shaftesbury.
134	I would like to see the problem of dog fouling addressed in Shaftesbury as it affects all areas of Shaftesbury and will get worse in future with all the additional housing.
135	if grass could go back to being cut more often once again, this would enhance the area. It would be lovely if breach common could be cleared and footpaths re-instated as used to be beautiful views from there and walks.
136	Improved signage to Gold Hill/Park Walk/Castle Hill & walks between the 3. Also access for walkers to St James. Breach Common needs protecting/improving. St James could benefit from a cable car.
137	improvements around the hard site of tesco free parking near co op
138	In answer to Q28 - why would you say no to any? St James Common needs focussed and organised work. Overgrown.
139	in strongly agreeing with q28 its vital that aspirations are high and the high street quality design and ecological care is taken. no cars parking in castle hill green and park walk.
140	It is more important to RESTORE those areas to their former state, not to ENHANCE, as they don't need enhancing.
141	It needs a plan a strategy not these piecemeal approaches
142	It would be good to be able to see the views from behind Abbeyfield Med. Centre foot path - the hedges are too high. When the new bungalows were built it was agreed that occupants should keep hedges below waist high.
143	Just maintenance required on the areas listed in Q28
144	keep all historical building from new builds

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
145	Keep the streets clean by having more bins, possibly even small recycle bins.
146	Keep the wooded top to Shaftesbury
147	Land between Half Moon and Cann boundary. This land is used by walkers and supports a large number of wildlife species including deer, badgers, foxes, kites, owls, voles, rabbits and grass snakes.
148	Leave Castle Hill as a green open space of natural beauty!! No Monument
149	Leave Castle Hill Green as an open space (NO rifles monument)
150	Leave Castle Hill Green well alone
151	leave enhancement alone - best left as it is
152	Letter supplied regarding 'Eastern Cycle' Route. A30 leaving East of Shaftesbury and passing by the Donheads and on towards Salisbury is a fast narrow road that has increasing traffic including heavy lorries. It is too dangerous for cyclists to use so anyone living this direction have no safe way of cycling to Shaftesbury. Also those living in Shaftesbury have no safe way of heading out to the countryside to the East towards Berwick St John, Alvediston and further.
153	Littledown adjacent to A350.
154	local footpaths and walks
155	local villages - no house building
156	Lower Blandford Road. We moved from The Maltings because everyday we'd open the curtains and our lovely view was another house, so we don't want the same happening in our new home!
157	Maintainence of the wall and paths between the town (on the flat)and St James and Enmore Green - Shooters Lane is a concern! Maintainence of open views - no big trees on the slopes - traditionally grazed!
158	Maintenance of exiting features that make Shaftesbury what it is important Park Walk/Castle Hill/Stoney Path/St James/Trinity
159	Melbury Abbas and Cann
160	More bins around (less rubbish blowing around) Shaftesbury looks really scruffy now.
161	more interpretation and circular walk to encourage visitors to explore.
162	More litter bins, designed to fit in with our historic setting, need to be placed around these areas. They also need to be regularly emptied!
163	more rural footpaths created
164	Most of the areas listed are good so please leave alone
165	Much of the current town centre/castle hill/park do NOT need enhancing. JUST GOOD EFFICIENT maintenance.
166	N/A
167	natural drainage brownfield GF, AONB
168	NB. 'Enhanced' if it means cleaned up and made less shabby NOT petrification - or more notices.
169	No memorial in Castle Hill Green!!! Re-design of Park Walk & Garden.
170	No more houses
171	No opinion.
172	No wind turbines/solar farms to be visible from Shaftesbury
173	None
174	Not to build homes on farmland but only on brownfield sites, and also keep new home must blend in unlike the new homes on the A30 Salisbury Road.
175	Observation of ANOB and conservation rules.
176	One of the things that makes Shaftesbury such a lovely place to live is the abundance of green space areas. These must be preserved at all cost. The improved footpaths in the Castle Hill area are a good plus. Other foot/cycle paths in more outlying areas would continue/extend this, but should not be overdone as the wild areas are also a special asset.
177	Other open green areas throughout Shaftesbury
178	Our green fields

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
179	Outdoor gym at Castle Hill (For the elderly - lots around there who will use it)
180	Outer areas of open space. Public footpaths not to be fenced in. Dogs to be able to be walked off the lead.
181	Over park walk looking towards St James its a disgrace with long grass, weeds etc in summer Gold Hill cobbles not looked after
182	Paint Guys marsh green to enhance the view from abbey walk!
183	Park opposite The Two Brewers Pub needs a toilet, very useful.
184	park walk
185	Park Walk could be made to look much nicer, gravelled or tarmac quality. Heritage style litter bins & lighting, benches etc. The tennis court that used to be in the park below Park Walk (see plaques in park) should be restored for all to utilise. Cafe kiosk in garage at Castle Hill Green.
186	Park Walk Gardens
187	Park Walk to enhance the view Park Walk is a lovely promanade for walking, cycling and to enjoy the view. However due to the neglect of the slopes off this area the view is all but gone in the summer. The paths are awful and there is bramble everywhethere
188	Park Walk will cease to be a view point unless self seeded trees and scrub is cut back in St James' park Also Castle Hill If you look at early post cards of Shaftesbury Castle Hill is clear of vegetation, not like now overgrown & full of japanese knotweed
189	Pine Walk
190	Pine Walk
191	Pine walk
192	Protect the Shaftesbury green belt
193	Protect & preserve the few open spaces we've got.
194	Protect Dinah's Hollow, Melbury Abbas
195	Protect Historic Town Centre why do you thin it needs to be enhanced and how? The last attempt to enhance Shaftesbury is still not complete and was not needed
196	Protect our green lands surrounding Shaftesbury. Only build on derelict sites
197	Protect surrounding villages
198	Protect the area/land ear-marked for a eastern by pass to Shaftesbury
199	protect what we have - i see no further need to enhance many of the areas in q28.
200	Protection of existing green spaces and areas of outstanding natural beauty
201	Public footpath to be accessible - cleared in and around Shaftesbury for walkers
202	queen mothers garden
203	Queen Mothers Garden - any area which includes our beautiful natural views. Breach common, St James Common.
204	Re Q.28: Castle Hill Green - 'Improve entrance'. Individual trees & woodland visually & ecologically important to town. Generally upgrade & connect disparate areas to form a network of corridors, with core areas (nodes/hubs) at strategic & historically important locations.
205	Recreational grounds on Wincombe Lane, in St James and Enmore Green. Secondary school playing fields and primary school open space.
206	Remove hedge on Park Walk; Make sure the trees do not block the views from the tops of the slopes.
207	Remove trees and undergrowth in St James Park and Slopes up to Park Walk
208	Reservation required essentially for the proposed bypass routes to be green space before and after new road installation
209	Respect AONB, green belt, Tree Preservation Orders etc
210	Roundabout at Jnct of Tescos & Pound Lane full of horrible pvc advertising banners that look tatty.
211	Rural outlook beyond the 'Slopes'.

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

Q28a Historic Environments - Additional Areas to be Protected	
	see q28
212	i have reservations about enhancement because it can be mixed blessings and is very subjective.
213	Shaftesbury environs have managed to retain a breath taking legacy of beauty. Peppered with struggling small farms, this is a landscape of major significance in Northern Europe. It is worth looking after. BB's are part of the tourism network and visitors can spend a lot of money in the area.
214	Shaftesbury should be protected generally from over-development
215	Shaftesbury's unique position and character as an ancient hill top town. interesting signage when entering this area and good traffic management. we already have many good cafes.
216	shooter lane - please preserve as a route up to town for walkers. - can it be maintained better. the sides need shoring up.
217	St James
218	St James - parking is a problem
219	St James ????? French Mill Lane. Park Walk, Pine Walk Stoney Path.
220	St James Park, remove moss of the trees and scrub
221	St James St and Gold Hill (views to Win Green from A30) St James Park, Park Walk
222	St James st, Layton Lane through road is now a Rat Run - protect by closing through road and bottom of Gold Hill
223	Stoney Path
224	strict adherence to conservation legislation
225	surrounding villages and country side
226	Surrounding villages should remain as small villages - not been seen as potential development sites
227	Take out a contract with a contractor to hedge trim the common from Shaftesbury to Guys Marsh, as no upkeep on common. Better use of St James park below and above Park Walk. Park Walk should be used for some special events
228	The "town enhancement scheme" spoiled the town in a number of ways. The pink paving chosen was disastrously out of keeping with the town, and the erection of black metal posts outside the Town Hall makes the area look like a film set for a 2nd rate Western, so leave well alone!
229	The above areas should be CONSERVED, not "enhanced" that means ruin, if the town "enhancement " is anything to go by
230	The area to the north east of Wincombe Lane and north of A350 must be protected from housing developments.
231	The areas on the outer skirts of Shaftesbury that supports diverse and vulnerable eco systems
232	The beautiful trees of Shaftesbury to be protected
233	The Blackmore Vale
234	the common land in enmore green.
235	The Commons - no additions unless totally in keeping with the area - more needed anyway.
236	the commons need more management - they have been overrun with Japanese knot weed and Himalayan Balsam.
237	The development of castle hill path is a terrible municipalisation and has made a charming , natural old path into an eyesore
238	The entrance to the town from the north remains poor with industrial units on both sides of road from top of hill. Good landscaping could make a big difference.

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
239	The entry to Shaftesbury along the A30 from Salisbury and A350 from Warminster are being spoiled by industrial "warehouse" style buildings. The new area to the south of A30 will exacerbate this situation.
240	The existing grassed areas adjacent to the main roads around Shaftesbury should be taken over by the town council from highways to ensure that they are maintained in a reasonable state. Up to now they have been allowed to make the area look scruffy to passing traffic and local residents
241	The football club and the area around should be kept as green open space as we've already lost fair field to Fair Lane and the Scout bonfire field to Mampitts Road new development
242	The grass verges and trees on the ring road (i.e. Christy's Lane) could be better managed. Also the park (childrens) at the bottom of Park Walk (St James really could do with a big makeover. Its a disgrace
243	The green area (site of outstanding natural beauty) at the bottom of the hill in Shaftesbury, between Bimport Road and Enmore Green. The paths have been recently renovated and look fantastic but the main pond is rather neglected and could benefit from weeding and vegetation cut back.
244	The interpretation of 'enhancement' is crucial. Park Walk and the walks near the Old Castle are a huge asset to both residents and visitors. Any 'enhancement' would need very careful assessment of historical & natural considerations.
245	The little swimming pool in Barton Hill served children and families so well each summer. It is very sad to see the inability to repair the roof and get this charming feature up and running again.
246	The one place town is known for - Gold Hill
247	The removal and rationalisation of unnecessary street signage. Dorset County Council produced guidance on this some years ago and yet we have a plethora of signage to the extent that we are now witnessing tacky advertising placards on our roundabouts.
248	the slopes around the town need to be enhanced and protected.
249	The St James area which is currently choked by cars.
250	The town should enhance its historic look. Some of the current shops look out of place in the old town look
251	The town should enhance its historic look. Some of the current shops look out of place in the old town look
252	The traffic coming through Shaftesbury is killing the town. Build a bypass road to allow the town to show off its natural beauty and encourage visitors. Shaftesbury is spoilt and looks terrible!!
253	The trees at the park in St James are too tall and block the view from Park Walk. Trees are being put on open play parks leave space for play.
254	The view from Park Walk and on the other side
255	The Views looking out from Shaftesbury No wind turbines, industrial areas or buildings out of keeping with surrounding countryside.
256	The 'western' slopes - Enmore Green is starting to have 'scope creep' - its a conservation area - sometimes and sometimes not! Be clear about what is and isn't allowed, you ruined the view from Castle Hill Green with Brickyard Farm Development. Trees still dont hide the panels after 2 years.
257	The wide verges to Warminster Rd, Christies Lane. The pump green at the bottom of the Knapp. The cobbles in Gold Hill have been badly repaired and need putting right. The big wall in Gold Hill needs vegetation removed (and the Town Hall)
258	The wilderness
259	The wilderness.
260	There are areas in and around the town that need constant T.L.C but need to be done by professionals, not purely volunteers. They can assist though.
261	THERE SEEMS TO BE AN INCREASING LITTER PROBLEM IN SPITE OF THE WONDERFUL WORK THE LITTER PICKERS DO
262	These areas are very important. They need to be protected and improved when necessary. I suspect the Council's idea of "enhancement" might mean ugly or inappropriate tarting up.
263	The Slopes surrounding Shaftesbury: blossom trees planted.

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

Q28a Historic Environments - Additional Areas to be Protected	
264	Think what 'enhancement' did for the town centre: killed some important shops (especially Humphries) encouraged people to shop out of town. On this bases I feel 'enhancement' would be fatal for this town.
265	This area is wonderful because it has not been messed about wit, please don't spoil it
266	Tidy up Gold Hill; get rid of moss and make completely cobbled. Tidy up Ambulance Station area on Castle Green Hill
267	Too late - development has already destroyed "green" areas.
268	tout hill to breach common
269	Tout Hill, Gold Hill, St Johns Hill, Shooters Hill
270	Town centre/High St, Enmore Green, Gold Hill
271	Town roadside grass to be cut more often
272	Trinity gardens could be enhanced and used more. pathways eg: shooters lane need enhancement/protection from erosion, allotment in st james needs protection and enhancement. all beech trees need protecting
273	Very wary after last 'enhancement'
274	View slots from town to surrounding country side eg: side of mitre (now lost). Top of shooters lane by cranbornes now lost to overgrown behind derelict house. Both provided unexpected views of surrounding countryside but now lost.
275	Views from Abbey Walk should be protected. Intensive sheep milking farm already impacting on views
276	Views from Park Walk
277	Views from Park Walk & Castle Hill draw tourism to town along Shaftesbury Abbey
278	Views from park walk Areas around present built area i.e end of Wincombe Lane - end of Mampitts Lane - area north of Wincombe Ind Est so that Shaftesbury doesn't leech down to surrounding villages.
279	villages surrounding shaftesbury need to be protected
280	We live in an area of outstanding beauty - this must be preserved, together with the spectacular views
281	We need to have better headgear and tree care many over grown blocking views and being at risk in bad weather
282	We need to make sure Shaftesbury is kept clean and tidy. It is a beautiful town that needs to be protected, but not treated like a museum. It should feel like a vibrant town that people are proud to live in.. Make sure tourists enjoy their time in our very English landscape.
283	We thin the area is quite good at the moment
284	We were disgusted with the roundabouts and verges in Shaftesbury during 2014. Grass/weeds and rubbish.
285	Western Slopes
286	What do you mean by 'enhanced'! Given its low aesthetic standards of its planners - this could result in something worse.
287	WHAT DO YOU MEAN BY ENHANCED? TO MAINTAIN WELL WHAT WE HAVE AND FINE THOSE WHO LET THEIR DOGS FOUL WOULD BE GOOD.
288	What do you mean by enhances? AONB & woodlands
289	What is meant by 'enhanced'. If you mean 'protected' & maintained then yes as ticked- all of them. Don't change them
290	When you say "enhanced" I mean "protected" all of areas in 28 are special + need to be left as they are. Enhanced? Shouldn't need developing they are lovely as they are + all need to be protected as character of ancient hilltop town
291	Wildlife should be protected
292	Wincombe Lane

Free Text Response – Shaftesbury, Melbury Abbas & Cann Questionnaire

	Q28a Historic Environments - Additional Areas to be Protected
293	With all the concern over the abbey ramparts on Gold Hill has anyone notice it is being undermined by rodents (rats or even badgers) where the stones have been dislodged opposite no 7
294	woodlands and recreation grounds/parks
