Q3 Which type of property do you need in the future?	
84	Towns and villages within the Blackmore Vale have experienced unprecedented levels of housing development over the past 10 - 15 years to the extent that there has been a detrimental change to the overall character of the area. Schools, medical facilities and amenities are oversubscribed, roads are busier than ever and housing allocated for local/social needs has been used to house tenants (frequently problematic tenants) from outside the area. NO MORE NEW HOUSING aside from a limited number set aside specifically for local residents.
85	Until there is infrastructure to support them I can't answer Q1
86	We have a separate garage which you cant park in front for blocking other people getting to theirs
87	Would like more space
